MAIN STREET -- BOW ISLAND

Bow Island News

Mr. A.E. Anderson accompanied by Mr. and Mrs. Ed. Thompson motored to the home of Mr. and Mrs. Joe Lynn last Sunday on a short visit they also called on Mr. and Mrs. W. Henry, of Maleb

The wheat in Maleb district will mostly all be cut by the end of this week and although there are not as many stacks this year as last year, yet the heads are heavier which will help to make the yield a trifle more than last year, it is expected threshing will commence next week, farmers have a good supply of feed this year.

The U.G.G. Elevator shipped out car of 1922 wheat last Wednesday the 23rd, which graded No. 1 and went 68.00, to the bushel, this wheat belonged to Mr. Frank Reams and Mr. Mike Millar this is the first new wheat to be shipped out of Bow Island this year, it was threshed last Tuesday

We are very sorry to hear that Ethel Ingoldby is very sick in Lethbridge Hospital where she has undergone an operation

Mrs. Burch of Winnifred spent last Friday between trains at the home of Mrs. Barnham

We are glad to see Mrs. J.K. Shearer around Bow Island again

Mrs. R.L. Stone and daughter left for Rosebud on Monday accompanied by Mrs. Hilton Parker who went as far as Lethbridge

Mrs. Stone has been visiting her parents for a few days also Mrs. D. Ryan and children visited at their parents Mr. and Mrs. Hurlbut

A very sociable evening was spent at the L.B.A. last Tuesday, after the meeting was over a very good lunch was provided by the Ladies, all of whom certainly enjoyed a treat

Mr. and Mrs. Hylant's baby has been very sick, but we are very glad to hear that it is now better now

Miss Hazel Burman who has been visiting with Miss Vera Ostrum at Burdett for about a week returned to her home in Bow Island last Monday

BORN—To Mr. and Mrs. Ralph Fisher on August 17th, a son

Mrs. E. Thompson's sister from the States who has been visiting a few days left on Tuesday for her home, Mrs. E. Thompson accompanied her as far as Medicine Hat

Mrs. J. Hodgson, living east of town met with a bad accident while driving to town last Tuesday her horse became frightened and ran away, throwing Mrs. Hodgson out, who sustained serious injuries

Mr. Orr, late agent of the N. West Grain Co., closed the elevator on the 22nd, owing to poor crop conditions, and has now gone north

While driving a hayrack in the high winds and dust storm of last Saturday Mr. McNeel of the Union Bank had the misfortune to have the rack blown on him, but luckily only received a few bruises

Mrs. Tolson and little son left last Thursday for Lethbridge to visit relatives for about a week, when she will return to Bow Island and stay with her father Mr. N. Walworth, before leaving for his home in Montreal

Miss Isabelle Whitney left last Thursday for Calgary, after visiting her mother here for some time

Miss Sylvia Danielson leaves Monday for Calgary where she will attend Normal School, Sylvia was studying at the Medicine Hat High School for some time before the summer vacation started when she returned home to her parents

We are very glad to hear that Ella DeFew who was taken to Medicine Hat Hospital on Monday 14th, for an operation for appendicitis, is now doing nicely

Mr. Claud Traher and Mr. C. Holmes of Briskown were the guests of Mr. Mrs. Hurlbut on Sunday evening on their way to Lethbridge

All Saints' Church

Rev. Leacock Preacher

Services will be held on Sunday August 27th.

Morning Service 11 a.m.

Evening Service 7:30 p.m.

Everybody Welcome

Surprise Party

On Wednesday evening of this week, a host of young people gathered at the home of Mrs. M.D. Schenert to give a surprise party to Reg Setters on the occasion of his 21st birthday

Shortly before 9 o'clock the young people beaming with smiles invited themselves into the parlor where they soon made their presence known by shouts of "Surprise" which needless to say, embarrassed Reg very much

When all had taken hats and coats-off the evening passed with much enjoyment. Music and games were the order for the first part of the evening, and just before supper was served, Bertie Bateman made a very "touching" speech and then presented the 21 year old with a Camera on behalf of the friends present, which was much appreciated by the honoree one

Then came the delightful lunch, the chief feature being the Birthday Cake which was illuminated with twenty-one candles, giving a little light on the subject

Supper being over, music was again in order which concluded with the singing of "Home Sweet Home" bringing the most pleasant evening to a close, the guests leaving about 12:30

Thanks are due to Mrs. Schenert for the part she took in the proceedings for we all know that the hosts have so much to do with these parties

Mr. T.A. Reynar of Maleb was a business visitor here last Tuesday

Grain Prices

Local prices for grain are as follows:

Wheat 82c. per bushel
Oats 38c. per bushel
Rye 46c. per bushel
Barley 36c. per bushel
Flax 81.57c. per bushel

Mr. J.W. Reid is away at Courts looking after the interests of the oil well there

Terrific High Winds

Last Saturday Evening Bow Island Districts were visited by terrific high winds last Saturday, which blew the roofs off three box cars that were in the Station Yard at Bow Island -- and it also injured some of the grain by breaking it down but no loss has been reported

A.J. Bergeron's

House Burnt Down

Last Saturday evening, A.J. Bergeron's house was burnt down -- It appears that A. Anderson and family were living in the house -- Mr. Anderson happened to be away at the time and Mrs. Anderson was getting supper when a terrific high wind must have blown some of the fire outside, thus setting alight to the house, it is said that the buildings and contents were fully insured

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Dated at Ottawa, 8th August, 1922.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922:

W. S. FIELDING,
Minister of Finance.

Alberta Miners'

Strike Settled

Men Will Go Back To The Pits Immediately at 15 P.C Wage Cut Pending U. S. Settlement

After striking for five months less a few days, the Alberta coal miners are going back to work next Monday. That was the good news which flashed through the mining camps of this district No. 18 Wednesday night, and it was accepted joyfully after so many weeks of illness. Resumption of work in the mines by Monday, and the disposition of any few of a serious coal famine in Western Canada, the coming winter, will result from the action of the miners and operators in session in Calgary in getting together. Ballot was taken Friday on basis of settlement, but no doubt of Result—will get old wages if 75 percent U. S. Miners sign old scale till March 31. Means return of big payroll

Call on Members

To Return Money

U.F.A. Local Near Red Deer Is Incensed Over The Special Session Indemnity

RED DEER, Aug. 22. The storm of protest against the \$250 indemnity that members of the Alberta legislature voted themselves for the fivday session in July when wheat board proposals were discussed, continues to grow. Following the action by the Clover Bar Local, the Ridgewood local of the U.F.A., has taken a very decided stand on the matter, resolutions calling on all U.F.A. members to return \$100 of the indemnity or to resign. If they refuse to either, Ridgewood local plans to demand their expulsion from the U.F.A. at the next general convention of that body

Winnifred

From Our Own Correspondent

A hard rain accompanied with hail visited these parts last Monday and great loss was felt, on account of the standing grain, but so far no loss is heard of which we are heartily thank, ful for

Mr. W. Parker an old timer in these parts is here on a visit, has been sick much of the time while away, but is on the gain now

Mrs. Murphy of Redellif has been engaged to teach in Winnifred the coming year we hope for a successful term

Harvesters are numerous at the present writing and the hum of the reaper is heard on all sides and we all hope for a much needed harvest

Miss Rose of Fairlight has again taken up her duties there, she made a grand success last fall and all concerned are glad to welcome her in our midst again

By the way the people are flocking to the bathing place, on the Pointe lake, but it is a nice quiet place, and a good place for the boys, after a hard days work, to go in for a bath

"Independence"

What a wonderful ring that word "Independence" has for every human being, it holds a subtle "Thrill" for all peoples of the earth, it has a "Magic Charm" that no power can conquer, it is the "Best Loved Word" in the English Language.

The word "Independence" inscribed on Regimental Standards will lead Armies to certain Victory.

The Dominion Government of Canada holds out to YOU a method whereby YOU may have "Independence" from all cares and worries for the rest of your life.

The Bow Island and Burdett Reviews would urge All who possibly can, to Try Hard to gain this "Independence" and the Dominion Government of Canada will gladly Help You—

Do not Delay—Write Now

Drought Relief Act

Approximately ten per cent of farmers in the drought area in the south have taken advantage of the Drought Relief Act, according to a statement made by Commissioner E.J. Fream. This has meant the opening of 2000 files since June 20 last, when the commissioner began his work. Altogether he expects that there will be about 2500 files opened. "I believe the peak has been passed" Mr. Fream remarked, "and we will now have a chance of dealing with these files so that adjustments might be recommended."

Tenders for School Van

Tenders will be received by the undersigned until noon of August 26th for the driving of Van from the South East portion of School District to School in Bow Island. Duties to start September 5th.

Lowest Tender not necessarily accepted
Archie C. Gage—Secy.—Treas.

Blamed it on flies

WESTWOOD, N.J.—A cow on the farm of George McClure, near here, swung its head to drive away flies and drove a horn through the abdomen of a farm hand attending it. He died before medical aid could be summoned.

A party of colonizers from Scotland have been visiting Alberta with a view to locating land for immigrants from the old country who plan to come here shortly

WINNIFRED NEWS

Mr. and Mrs. Larsen, Mrs. J. Shearer and Mr. and Mrs. A. Peek of Lethbridge and Mr. S.V. Hurst returned from a short excursion motoring trip to Waterton Lakes on August 16th, all reported it an enjoyable trip

Local market prices butter 28c eggs 12c.

Mr. and Mrs. M.J. Collins Sunday with Mr. and Mrs. Norman Heath

The Willard Comming Elevator Company Grain Merchants of Calgary and Winnipeg are shipping out 2 cars of 1922 rye this week. Mr. P.C. Buchring the manager and buyer reports rye coming in fast and the grade No. 1 threshing outfits are pulling in this week and the hauling of rye will not last long

Mr. Art Bremner made a business trip to Medicine Hat August 19th.

Harry Winchcombe and Earl Smith were putting up hay for A. E. Kendall last week

Mrs. Wm. Rodger and children returned last Friday from a visit to Medicine Hat at the home of Mrs. James Gibson

Mr. Tom Trebble was a business caller in Medicine Hat a couple days last week

Open Elevator

The Ogilvie Elevator re-opened on August 15th. with Mr. J. Keith of Lenore, Manitoba as manager. Mr. Keith has been very busy getting the elevator in shape last week and is now prepared to welcome the farmers

Mr. Bill Parker is back from Vancouver, B.C. where he went to recuperate his health and in feeling fine this summer

Billy Huff returned from Coaldale August 19th. to get his horses and plowing outfit, returning Monday beginning on a large contract of plowing at Coaldale

Threshing of Rye nearly finished, harvesting wheat is in full swing, most wheat is being cut with Headers or cut with binders with header attachments, a large acreage of Rye will be sown next month. Oat crop is very small, on August 18th. and 19th. terrific winds and dust storms which damaged the wheat some, that was dead ripe and delayed work, a number of threshing outfits are working and all report the yield of Rye small 10 to 15 bushels but the grade No. 1. The weather last Tuesday was ideal and last Monday we had a slight rain

First car of Rye from Winnifred was shipped by W.O. Long, Thursday August 17th. manager of the United Grain Growers Elevator the second car being shipped August 24th. Mr. Long is a busy buyer these days

Mr. and Mrs. Ted Winchcombe motored to Elkton last Sunday to visit relatives for a few days

Leonard Schan has purchased a large separator and will be ready to thresh the wheat crop as soon as it is ready

Indemnity For Special Session Is Criticized

East Clover Bar Local U. F. A. Protests Against \$250 Payment
(Edmonton Journal)

Objection to the action of the Alberta Legislature in voting its members a quarter-thousand indemnity for the recent session has been taken up by the United Farmers of East Clover Bar district, who at a meeting of their local organization passed the following resolution:

"Resolved that the East Clover Bar U. F. A. Local No. 3 strongly protests against the action of the Alberta Government in voting their members the sum of \$250 per member for the recent special session lasting a few days."

In the discussion that led up to this resolution the fact was emphasized that the government had started out on a vicious policy of economy, and it was considered that the present indemnity of the members of the legislature was sufficient for all sessions held in one year

TO OUR SUBSCRIBERS

We sincerely hope that our Subscribers who are in "Arrears" with their Subscription to the **Bow Island or Burdett Reviews**, will make an earnest effort to pay some now

If you Cannot pay all that is due please pay some.

There are many that have some Crop this year and they will never miss paying for their Subscription.

And we have never worried anyone when there were crop failures.

DIET NOT EVERYTHING
IN KEEPING HEALTHY

Your table may be loaded with food digestible and wholesome, yet you don't get strong. What's the trouble? The liver is lazy, stomach is overloaded, the bowels are not active. Relief is quickly supplied by Dr. Hamilton's Pills. They make weak people strong and well because they keep the system clear of impurities. Those who regulate the system with Dr. Hamilton's Pills will have indigestion or constipation. Therefore, they feel better all over, because their system is kept in smooth running order.

To revitalize and stimulate your whole being, to shake off laziness and listlessness, nothing compares with Dr. Hamilton's Pills, which certainly bring good looks, good spirits, good health, 50¢ all dealers, or The Caltanissette Co., Montreal.

MY
CANADA— BY —
ELINOR MARSDEN ELLIOTPublished by Special Arrangement
with the Author.

(Continued)

XI. Winnipeg,
July 5th, 19—

Mr. Brown called just as I was completing my last entry, and he had been here almost every day since! At first I was a little uneasy, for I was not at all sure that he would know how to act—once never can tell what these unconventional Canadians are going to do. But he is really very good and kind, and his unworldly simplicity is not of the embarrassing sort. He usually comes laden with his tin cans and chocolate, and twice he has called with a motor-car and taken Mary and me for a spin around the city.

Next week a party of us are going to visit the Agricultural College. A friend of Mary's who is attending the Normal School will be there. Each teacher is required to take a month's course in Agriculture and Domestic Science before she is granted her certificate. I should prefer to attend the college when the regular classes are in session, but Mr. Brown is to be of the party, so the livestock is sure to be properly introduced.

And in ten days I again leave Winnipeg. I am almost excited, and wonder, for my destination is the Bingham ranch. Is it luck, or fate, or Providence, I wonder?

Sunny, bless her heart, opened the subject.

"Mother," she said one day after an unusually long silence, "why can't Miss Elliot come home with us?"

"Miss Elliot would not care to go far away from her friends, dear," Mrs. Bingham replied. "Perhaps she and Mary can come next summer, and we'll have a house-party for them and give them a really good time. It would be too quiet and lonely for her at the ranch now."

Then she turned to me. "I am dreading the winter, myself," she said. "My husband and I have decided to take a house in Carlton City for the winter months, but this is the worst time to go. I don't think I shall get enough fresh air and sunlight."

"You should try to find a companion," suggested Mrs. Bingham. "I do think of sending to England for Jack's sister, Mrs. Bingham once thought, but I know she would simply

Do You Know a Sunfish When You See It?

THIS Sunfish is a member of the Globefish family and Plimie learned this after his wonderful play and rest among the rocks that had been discovered by the low tide. When he learned all about everything concerning Hermit Crabs. What a good time he had had! He had the more thought of leaving the place, and yet he had to, because at last the tide was coming in—which, as you know, it does every twelve minutes just as it goes out again at the same time or thereabouts. So, tide coming in and Plimie perforce going out, he naturally was on the lookout for new things to learn about. He had watched Hermit Crabs until he was very tired, and that is unusual for any Brownie. He had seen them fight about nothing (which they are always more than anxious and willing to do), and he had seen them battle about the house they lived in, had lived in or were waiting to live in. Such fights! He had seen some of them terribly wounded and torn in half, while the victors triumphantly took possession of the empty shell; and he had seen other things, too! And one of them reminded him of what he had seen on Fifth Avenue in New York City, and when looking in a shop window had beheld a Japanese screen that had been so beautifully painted and landscaped that for a moment he gazed at it as if almost thought himself beyond the city limits and far away from the ocean. In any case, he wished himself there, and thought of fishes and birds and flowers and walrus and fish and rooks.

(can you guess what he saw?)

It was leaning against some rocks overlooking a patch of water which the sun directly struck, and right there, where he could so distinctly see them, a whole school of Sunfish were lazily basking and swimming in the sun-warmed waters. They went around and around, some of them hurrying and one of them lagging behind the others; and Plimie, who in spite of being full of mischief is just a fellow of love of the unusual and beautiful, could hardly breathe, he was far too busy looking. It was almost exactly like the design on the beautiful Japanese screen that he remembered.

When thinking of Sunfish are a school of fish. We order Sunfish from the fish dealers when we should say Panfish. A real Sunfish is almost round in shape and has very long and pointy headfins, fins toward the end of its body. It gleams and shines with phosphorus by night, and for this reason it is called Headlight and Moonfish. It is very good to eat, and the Panfish that we wrongfully call Sunfish are delicious and much in demand.

English people drop those pecky stones and do you weighing in an up-to-date style.

"That is just how I feel about your Canadiana."

He smiled as one would smile at a child. "I'd just mention your objections to the fact that I'm sure they'd see what they could do."

If there is anything that makes me perfectly wild it is to be spoken to in that way."

"I suppose you'll not go quite nine stones," he continued.

"No!" I snapped. "I'd I'd begin to stare myself."

"And I'm a little more than eleven," he went on mildly. "You should strike a pretty fair average."

"What was the man coming to?" I soon found out.

"This park is pretty enough in its way, but it looks green and me to me after being used to Saskatchewan," he said. "I've got the faintest idea of what you mean, about a hundred years ago, when the first white man made that there town look like a capital of water to a thirsty one."

(By he continued)

The Mother of Athletics

The United States have geographical boards who are responsible for the authentic spellings of place-names.

England Taught World the Value of Outdoor Exercise

Much has talked and written by foolish people about the decadence of English sport when some foreign team or crew takes a laurel from us. It is nonsense. The English taught the world the value of outdoor exercise. Like all good teachers, they rejoice at the proficiency of their pupils. They do not expect to retain for ever and ever a jealous hegemony in athletics. Other experts, other methods must inevitably arise. The very presence of these foreigners is the highest possible tribute to the position held by England. Besides, it is easy to think too much of sport. There are other fields to conquer—London Daily Express.

"It testifies for itself.—Dr. Thomas' Electric Oil needs no testimonial of its power other than itself. Whenever it is for coughs or colds, for cuts or contusions, for sprains or burns, for pains of all kinds, it is the only remedy that is guaranteed. This shows why this Oil is in general use."

A Bad Location
Two Jews met on a street in a western town. Said one: "I am all broke up; business is rotten, and I have lost all my money." "How so?" said the friend. "I see your sign all out on the second story of 19 Main Street." "Liar," said the first Jew. "I put in \$5,000 worth of fixtures, \$10,000 new stock, and insured for \$20,000. Then the fire-engine company takes the floor above me. O! O!

Another Thing
The benevolent man called a little to weeping, and said to her: "Now be a good little boy and stop crying." The weeping man said, "I can't." "Well, here's a penny. Tell me why you can't be a good boy?" "Cause I'm a girl."

Arranging Experiments to Determine the Exact Rate at Which Light Travels
Experiments to determine the velocity of light on the basis of accuracy greater than has ever been attempted are being conducted at the Mount Wilson observatory by the late Dr. A. Michelson, head of the department of physics, University of Chicago, has taken charge of the experiments in the transmission of light. The work is expected to go further along this line than ever before in the history of science.

The velocity of light as science now calculates, is 186,000 miles per second. Dr. Michelson hopes to reduce the speed to such accurate measurement that he will be able to determine the fraction of time it requires light to travel twenty-three miles from Mount Wilson to Mount Baldy, in the Angeles forest reserve. He plans to establish the measurements by experiment between these two points.

Constantinople's Parish Dogs
Turks Sending Them to Barren Islands to Starve
Constantinople's hordes of parish dogs have by no means been exterminated. Thousands of them, merrily and hungrily, roam the streets and constitute a menace to pedestrians. More than 450 persons are now being treated in the Pasteur Institute here for bites from these vicious animals. A new campaign for their suppression has been inaugurated, but the Turks are proverbially humane and sympathetic to all animals and hesitate to put the dogs to death. Many of the beasts are being removed to the numerous barren islands in the Sea of Marmara, where they meet death by starvation.

Importing British Coal
Some coal is being shipped to American ports, a fact which may be somewhat far from the fact that American's boundless resources without stopping to reflect that national resources not made available by man's lack of no benefit to mankind.—N. W. Herald.

A Flying Cabinet Minister

The first cabinet minister in Canada to utilize aircraft in the discharge of his official duties is Hon. J. A. P. Macdonald, Minister of Lands and British Columbia, who left recently on a seaplane trip, visiting many points on Vancouver Island and the mainland coast. British Columbia now uses seaplanes as an essential part of its forest protection system, thereby accomplishing greatly the travelling time of its chief officers.

The publisher of the best Farmer's paper in the Maritime Provinces is writing to his states: "I would say that I do not know of a medicine that has stood the test of time like Minard's Liniment. It has been an unfailing remedy in our household ever since I can remember and has cultivated dozens of would-be competitors and imitators."

The civilized people of the world live on an average, over three million minutes every minute.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the weak sufferer whose vitality has become impaired by the attacks of these internal pests.

King George's Birthday Honors list included five new Peers, fifteen Barons, and forty-two knights.

Strength

Strength of muscle does not indicate strength of nerves. On this account many people who "look healthy enough" suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes:

"I had been troubled for some time with indigestion. At times there would be a twisting of the nerves of my stomach, and I also found it difficult to get a good night's sleep. I am a middle-aged man, and owing to the nature of my work my system became run-down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit in the medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to all my friends, as I think it splendid for anyone run-down and nervous."

Dr. Chase's Nerve Food, 50¢ a box, all dealers, or Edmondson, Hazes & Co., Limited, Toronto

Maybe that hill
is not there,
after all—

VERY often the hill we seem to be climbing, after the middle years, is made out of the common mistakes of diet which starve tissues and nerves and slow down energies with faulty nutrition and stored up food poisons.

How smooth and level the path seemed to be when we were young.

Simple, natural food may level that hill to a smooth path again.

Suppose you try it!

Begin today with a dish of Grape-Nuts with cream or milk (fresh or preserved fruit, too, if you like) for breakfast or lunch. Keep up this crisp, delicious, strengthening food in place of heavy, ill-assorted, starchy breakfasts and lunches—and see if the old-time level path doesn't come back again.

Measuring Electricity

Method is Same As Used in Measuring Water

The language of the electrician is Greek to most people. While he talks gibberish of volts and amperes and watts, they know only that they have to pay an electric light bill for so many units, and let it go at that!

Though electricity is not a fluid, most of its terms can be compared with water flowing through a pipe. Thus a stream can contain the potential of a water-wheel, the work that the wheel will do depends upon two things—the amount of water delivered every second and the pressure of the stream. The first is measured in gallons and the second in pounds.

In the case of electricity, however, the rate at which it flows is measured in amperes and its pressure in volts. The work which it will do is found by multiplying amperes and volts together, which gives the answer in watts, or units of energy.

The unit of water, often called a kilowatt, which is the electrical equivalent of one horsepower.

You will find the number of watts they require engraved on most electric lamps, and from this you can discover what they will cost to use.

A 25-watt lamp will use one unit of 1000 watts in forty hours' burning. The ohm is another electrical instrument which can be understood by a comparison with water. Water flows easily through a large pipe, but if the pipe is narrow, only a small amount can force its way through. What the pipe is to water, the wire is to electricity. The smaller the wire, the more difficult electricity will find it to pass, because the fine wire resists its flow. Wires are measured by their resistance in ohms.

Durable Roman Roads

Parties Using Unearthed Compare Favorably With Modern Highway

In the third century the Roman road of England made a road which ran from Dover to London, and then northward to York and Newcastle, with branches leading to Chester and Carlisle.

They made a sea wall, had its foundation so honestly, that a piece of it that has been uncovered in Hertfordshire is pronounced by the county and Devonport to be as good as any highway today.

Give it an asphalt surface, he says, and it would compare favorably with the best of modern roads.

What a tribute to the work of those Roman road-makers! What an encouragement to all who are trying to do faithful, durable work in any direction!

Walling Street was used for centuries, then its surface began to be covered up by the dust of ages. It fell into disuse; it was covered by mud; it disappeared even from local memory.

That wherever a piece of it is unearthed, as is happening now in Hertfordshire, there are the foundations firm and undisturbed by the centuries that have passed. Honest endeavor, putting the best of use into the day task, never loses its value.

Exchange in Europe

Humorous as well as remarkable are some of the stories of the fluctuating rates of exchange in European money.

An Englishman on his way from Germany to Switzerland bought a bottle of wine for 500 crowns in the Austrian Tyrol. After drinking the wine he kept the bottle, and on crossing the Swiss border, sold it for fifty cents. A Swiss fairy tale seems to be worth 700 Austrian crowns, so that the Englishman not only got his wine for nothing, but made 200 crowns.

The United States post office uses \$60,000 million of twice every year, enough to circle the earth 30 times.

Measles never recur from pneumonia.

Grazing Privileges

About one hundred thousand head of livestock—cattle, horses and sheep—belonging to settlers and ranchers in the prairie provinces, graze each season on Dominion forest reserves.

The grazing is regulated so as to give all stock owners fair play and to utilize all the pastures to the fullest extent without injuring them by overgrazing.

YOUR STARVED NERVES

The Cause of Neuralgia—Must be Treated Through the Blood

Neuralgia is the cry of the nerves for more and better blood. It means that the nerves are being starved. Like every other part of the body the nerves receive their nourishment through the blood. There is therefore no doubt that Dr. Williams' Pink Pills will prove beneficial even in extreme cases of neuralgia.

These pills increase and enrich the blood supply, carrying to the nerves the elements they need, thus driving away the sharp, torturing pains which nearly drive the sufferer wild. The benefit given by Dr. Williams' Pink Pills in the case of Miss Carrie V. Fletcher, Barre, N.H., who says:—As the result of a severe winter I got white out in a rain storm. I was attacked with neuralgia, from which I suffered greatly, and which kept me awake night after night. Although the pain diminished somewhat, I began to cry out in other ways. My appetite was gone, I got thin and had no energy. Indeed I was becoming a wreck. I took Dr. Williams' Pink Pills, and I am more than glad that I followed the advice, for they have restored me to my old-time strength. I cannot recommend the pills too highly, and hope other persons in poor health will try them.

You can get these pills through any dealer in medicine or by mail post paid at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medical Co., Brockville, Ont.

Saskatchewan Coal Shipments

The coal mines of British Columbia, are maintaining weekly shipments in excess of 2,000 tons, fifty-six cars leaving the last week with 2,145 tons. At the five collieries there is a total of 165 men employed.

"COLD IN THE HEAD"

It is one of the most frequent "colds" in the world. It is caused by a germ called CATARRHUS MEDICINE will hold up the brain and render less liable to cold. Repetition attacks of Acute Catarrh may be prevented by the use of CATARRHUS MEDICINE. It is a powerful and safe remedy for colds, catarrhs, and all the ailments of the head and throat.

There are 15,000 persons ten years of age and over in the State of New York in 1920 unable to write in any language. In New York City there were 28,121 illiterates, of whom 27,073 were foreign-born whites.

Ashma Can be Cured. Its sufferer is as needless as it is terrible to endure. After many years of failure to endure, the most stubborn cases no sufferer can find the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind result with its use and ailments of the lungs come back for good. Ask your drug dealer what he can supply you.

A Marital Obligation

"I must say I have been a fine!" exclaimed the young husband. "However could you say those words fine beauty?" whispered his mother as he and his bride went to get away from the kitchen.

"I didn't say they were fine, mother," replied the young man. "I merely said I must say so."

THREE PIECE SUITS ARE VERY POPULAR

These three piece suits of heater and cation crepe has the slender lines so much desired at the present time. Tan wool is used in the embroidered motif, and the collar which is very unique, is faced with crepe.

Mothers Value This Oil—Mothers who know how suddenly crup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thompson's Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise for its various uses render it a valuable medicine.

Export Saskatchewan Butter

Between 25 and 30 Carloads Will be Sent to Britain this Year

A representative of the Saskatchewan Cooperative Creameries has just returned from Europe after having made arrangements to export the bulk of the company's butter from Regina to Great Britain direct, and it is expected that between 25 and 30 carloads will leave Regina for the British Isles this year. Four cars are already on their way to the Atlantic coast.

Most Travelled Woman

Has Penetrated Portions of South Africa Unknown to Explorers

Mrs. Charlotte Cameron, of Hollibury, is the most travelled woman in Canada today, according to the Royal Geographical Society. She has just returned from a protracted sojourn in the South Sea Islands. In 1910 Mrs. Cameron covered 10,000 miles in South Africa. Later she continued her exploration of the dark continent, completely circumnavigating it and penetrating portions hitherto unknown even to explorers and scientists. During the war, when most of the world was closed to travel, Mrs. Cameron spent much time in Alaska. During the past three years she has been in South America, Australia and the South Sea.

Purging a Corn is both risky and ineffective.

It is much better to use Holloway's Corn Remover and eradicate them entirely.

Coin for League of Nations

The League of Nations recently struck off one coin (one-cent), which typifies the coin standard under which all league calculations will be based. It contains .22500 of a gram of gold, 30 per cent. fine, and is worth .225 of a dollar expressed in American currency.

The coin is octagonal, and carries the inscription "S.D.N.1921," which means "Societe des Nations." Only one coin will be minted. The coin will be used merely as a standard and not for circulation.

Complete In Itself, Mother's Gown Worm Extender is not need require the assistance of any other medicine to make it effective. It does not fail to do its work.

BURDETT WHITE LUNCH

Fortune left to War Widow

Scottish Girl Principal in a
Romance of Canadian
Forestry Corps

LONDON, Aug. 12.—Mrs. Nichol, the daughter of a farm worker, of Stonekir, near Stranraer, Scotland, has been informed that she has been left a fortune of £25,000 under the will of her late husband, David Nichol of Toronto, who served in the Canadian Forestry Corps, and to whom she was married in December 3, 1917—seven weeks before his death in England—while she was working at the Grenville munition factory.

Mrs. Nichol, who then knew nothing of her husband's circumstances or his relatives, returned to her home on leaving the munition factory, and after serving for some time in a tea room, has lately been employed as a housekeeper. Her husband was a son of the late Sir Thomas Nichol.

From our own Correspondent

Money! Money!

Your attention is called to this week's Review, about Victory Bonds which can be converted or exchanged for new Bonds bearing 5 1/2 per cent interest and an additional bonus of a full month's interest.

Also, it will pay you to carefully read over the Advertisement about Government Annuities, the title is "Independence" and it is rightly named, because if you can and will follow their advice it will make you happy and independent.

Mr. K. Brown was on the sick list last week, so ill that Dr. McPhail was consulted. Please note, it is the first time in history that K. gave in.

Rev. Johnson with his wife and her sister Miss Spangue who have been holidaying at Banff returned home on Friday and the church that has been closed during their absence was once more opened to the public, and although there are not a great many people who take advantage of the privilege, those who do appreciate it fully.

Messieurs Henderson, Ostrom and H. Lohle and Miss Elsie Brown took in the Circuit at Lethbridge last Wednesday.

Mr. C.T. McKinnon who has been on his holidays returned home last Wednesday alone, having left Mrs. McKinnon and the children at her mother's in Iron Springs.

Mr. Wm. Feather is here looking after his business interests.

Mr. D.A. Bull, who has been in charge of the Bank during Mr. McKinnon's absence, has returned to Calgary.

Mrs. Chapman of Redliff, while on her way to Spokane, Wash. stopped off for a day at Burdett to visit her boys who were working at Mr. Geo. Thacker's.

Mr. J. W. Emerson of Dunsville, Ont. is a business visitor in town.

Mrs. Emerson Brown and children are the guests of her daughter Mrs. Ed. Owen.

In the Departmental Examinations held in June 1922, the Burdett Consolidated school secured 100% of candidates in Grades VIII, X and XI. The following are the successful candidates:

Grade XI: Florence M. Brown
Grade X: Robert W. Anderson
Kenneth Campbell
Grade VIII: Mildred E. Clark
Ward Clark
Ellen A. M. Kunlin
Ruth Kunlin
Roger Korkham
Alice G. Ryge

Grade IX did not write Gov't Exams but was passed by the teacher. Mr. A.T. Litt is principal of the Consolidated, and will teach the High School grades again this year.

Mr. Jensen of Minneapolis, Min. is another business visitor in town.

Miss Fies Jubel entertained as her guest last week her cousin Miss Alice Jubel of Taber.

Mr. and Mrs. V.V. Bowe took their little daughter Phyllis to Medicine Hat last week to the Hospital where the doctor thought it expedient to operate at once for appendicitis, last reports were the child was doing as well as possible.

Storm Causes A Bad Accident

There was a very heavy wind and sand storm passed over the village last Saturday afternoon about five o'clock, which lasted about half an hour, causing a good deal of consternation among the housekeepers as "Saturdays work" had been completed and would have to be done again or have a dirty Sunday. It also broke several telephone poles and blew a large wagon over with a man in it.

Mr. Dunwoode, which fell on his leg, breaking it very badly. They brought him in to Dr. McPhail who found that the bone was shattered to such an extent that he did what he could to make him comfortable and recommended taking him to the hospital; he was taken to Lethbridge Galt Hospital that night.

Mr. J.H. Sandy put on a dance last Friday night, and altho the young folks are working these days, there was a good party gathered, they go on the plan that "all work and no play makes Jack a bad boy."

News in Brief

CENSUS RETURNS

Final returns on the Canadian census taken last year have been published from Ottawa, and show that Alberta led all other provinces in its increase in population, since the census of 1911, the increase being 57 per cent. The total population of Canada is given as 8,786,483. This is an increase of 21.96 per cent. since 1911. The rural population in Canada is given as 4,389,505, and the urban population at 4,396,978. In Alberta the census shows that the rural population is 62 per cent of the whole.

Fast Locomotives

(Candidate in London Sunday Pictorial)

An engineer tells me that the Great Western Railway undoubtedly possesses in its "six coupled" express engines the first locomotives in the world. Their capabilities in the matter of speed are not understood of the people, but a stationmaster, who timed a Plymouth special recently on a section near Westbury, assumes that for five miles, at any rate, one of these engines with six heavy coaches accomplished a speed of just over one hundred miles an hour. Formerly, they used to tell us that, owing to wind resistance and friction, no locomotive could exceed a speed of eighty miles an hour. The Great Western engines appear to have made havoc of this contention.

Savage Lioness Sprang Into Car

Thrilling Experience of
California Explorer in
South Africa

NEW YORK, N.Y.—Having a savage lioness spring into a small car with one is an unusual experience even in South Africa. H.A. Snow, the naturalist and explorer from Oakland, California, who recently has been staying in this city, gives the following account of this adventure on his recent tour:

"About twenty-five miles from Nalobi, in British South Africa, I had placed two camera men in blinds a mile apart, and thought it would be possible to make a detour of five miles in my automobile, and proceeding in a circle gradually drove some game toward the blinds. When I was about two miles from the blinds and passing over low rolling hills bordering the Tloka River, I fired at a herd of gazelles and brought down a buck. I got out to get the animal, when I noticed a lion stalking the herd.

"He was about fifty yards away, and presently disappeared. Thinking I had seen the last lion, I put the buck in the car. I looked again, and the lion raised his head. My blood was up and I meant to go after him. I made a detour around the hill, but coming over the top I found instead of one lion, six. They practically surrounded the car and I could not proceed. I halted the machine and let the engine running. Then I let fly at the biggest of the brutes. The shot went over his head, but the second one brought him down.

"I had only three shots left and within ten I brought down two more lions, and then saw behind me a lioness, evidently ready to charge. The only thing I could do was to start the car and go straight ahead, for to turn around was impossible. But the first thing I knew the lioness came right over the top and into the back of the car. I ducked under the steering wheel and trusted to luck. The car gave a lurch and threw the lioness out.

I stood up and shot her, and brought her down and then the next thing I knew I was stalled on a hillcock with. I feared my car out of commission. I expected any minute that some of the other lions would come after me, but evidently they had had enough of this fight. I finally got my motor started again, and limped back to the blinds. There I got my son and the camera men and we went back and picked up the lions."

Creston News

The showers of the past week have dampened the brush and given the fire fighters a better chance to cope with the Forest Fires, quite a few of the men have been let go as the measure is considered about past.

J.P. Peairs who has been cook at Camp Russell on the fire line for about forty fire fighters the last three weeks is home again, the rain enabled the men to get the fire under control.

Haying is to commence in the flats in earnest this week and a good crop is reported, the new bridge to Nick's Island is completed and ready for the hay haulers.

Earl Peairs met with an accident while riding a bicycle, he was taking a short cut between two streets when his tire swerved off the path striking a ditch, throwing him violently to the gravelled road and involving him unconscious for a time, friends came to his aid, after first aid was rendered he was taken home. Dr. Henderson was called. It was found necessary to put four stitches in his lip and two in his forehead. His lower lip was badly shaken up, his nose and he was badly shaken up at the time of writing he is doing nicely but it will be some time before he will be out again.

The way the Citizens responded in this case shows that human kindness unbounded exists in this community and was very much appreciated by the parents.

We see in the Winnipeg News of the Bow Island Review, that George Higgs is looking after his farming interests south of Bow Island, here is wishing him a good harvest as George is one of the boys who always looks on the sunnyside of life.

Car load lots of apples have begun to move from the valley and the 'this' has been one of the driest years experienced here for some time, the apple crop has come thru beyond all expectations.

Work is under way grading for the new switch to the Fruit Growers Union's new commodious buildings that are nearing completion. This will aid greatly in the handling of the fruit.

As many men are enticed by the good wages paid in the harvest fields, it is making the saw mills hustle to keep crews for their mills there, they are only paying \$3.00 and \$3.50 a day of 10 hours—and \$1.25 for board, this does not leave a man with a family a living wage and this wage will be lowered after harvest, we would advise all to find out what they are to get for their work before they ship to some of these mills.

Quite a few tourists passed thru our valley this last week.
